Notes

- Rather than waiting until the church interior is completed, work on the Adoration Chapel will be simultaneous with the rest of the church, saving money and time.
- Most of the millwork for the sanctuary has been delivered.
- Work on the choir loft rail will begin soon.
- Asbestos abatement should be completed by the last week of October.
- Pathways for a future sound system have been added to the project, will save money in the long run and minimize disruption.

God bless the generous hearts of Blessed Sacrament Parishioners!
