# OUR BLESSED VOICES

## BUILDINGS AND GROUNDS COMMITTEE.

**One never has to look far to find something that needs to be done at Blessed Sacrament.**

The Buildings and Grounds Committee has been hard at work and all of the little things do add up. But, in addition to the regular maintenance that we do, we have had some major work underway making this a busy summer with much being accomplished. The recent improvements are very noticeable. We have completed the following projects:

### School Building

1. The main bathrooms in the east wing (the new building) have been renovated. There are just a few finishing touches left to be completed, but they look great!
2. A new air conditioning system has been installed in the Library replacing the former system, which had been in place for approximately 25 years.
3. The courtyard pavement (west of the main entry doors) which is also the top of the vault, which houses the school's boiler, has had restoration work done to seal all the cracks and joints. Also, an application of a moisture protectant to prevent the top of the vault from leaking onto the boiler.
4. Two Classrooms were re-carpeted.
5. Three classrooms had plaster repairs completed and were re-painted.
6. A toilet was replaced, weeds removed, and a variety of maintenance issues were completed throughout the summer.

### The Church

1. New handrails have been installed along the stairs down to the church basement.
2. HVAC Replacement. This has been a noticeable change in the comfort of the Church. Thank You to all that provided financial support!!
3. Sacristy closet doors were installed as the last item of the HVAC renovation.
4. The landscaping on the east and south sides of the Church have been renovated. Beautiful job by the Altar Society with special efforts by Bonnie and Marv Evert.
5. All kneelers have had the upholstery and padding replaced.

### Rectory

1. The turf areas around the new garage is being completed, as well as the re-installation of the lawn irrigation system.

With All That Has Been Done, There is Always More We anticipate a variety of projects yet to be done as we plan for new projects, as well as to prepare for on-going maintenance. Future items include:

- Future parking expansion for an increase of between 20 to 23 stalls.
- Playground resurfacing and expansion.
- New landscaping along the north side of the school.
- New school sign.
- Re-Roof the west wing of the school
- Re-Roof the Church (the current roof is nearly 70 years old)
- Weatherproofing the Church windows

A special thanks to all those who gave of their time and talent and treasure to help accomplish all the work mentioned above as well, as a multitude of things that get done quietly with no fanfare.
